

REYNOLDS Groundwork Services Ltd

BASEMENTS | CIVIL ENGINEERING | GROUNDWORKS | HARD LANDSCAPING | RC STRUCTURES

A NOTE FROM THE MD PAUL REYNOLDS

Thank you for taking the time to have a read over our new brochure.

Reynolds Groundworks is an innovative and dynamic family owned and operated business which was incorporated in 2006. Over the past 11 years we have seen the company grow from strength to strength. We have delivered and continue to deliver a wide range of projects across a broad range of sectors in the UK. In this brochure you will find a selection of recent projects.

Over the past 11 years, thanks to our fully qualified, skilled and highly experienced workforce, we have built a strong reputation with our clients for quality workmanship, integrity and honesty.

Customer satisfaction, Health & Safety and Environmental issues are top priority for our company and we endeavour to continually exceed our clients requirements as well as our legal, social and ethical obligations. In order to do this, we work to an integrated management system which has received UKAS accredited ISO 9001, 14001 and OHSAS 18001 status. We are also accredited members of FORS, Safecontractor and CHAS.

Looking to the future, we plan to continue completing quality projects on time and on budget. We welcome opportunities to forge productive and exciting new relationships with potential clients.

NATIONWIDE COVERAGE

Our head office is based in Iver, Buckinghamshire and our dedicated office team have a wealth of knowledge and experience and are always on hand to provide quality customer service and essential support to our site teams.

With over 80 in-house operatives at any one time, consisting of site managers, Engineers, foremen, plant & machine operators, formworkers, steel fixers, bricklayers, groundworkers and labourers, our site teams are based across the UK in order to provide a rapid and comprehensive service all across England and Wales.

All operatives and subcontractors who work for us hold fully CITB certified CSCS and CPCs cards, UKAS accredited asbestos training, PASMA & IPAF cards as well as NVQ qualifications in their particular fields.

PLANT & EQUIPMENT

We own an extensive, modern range of plant and ancillary equipment, from 18 ton excavators and 6 ton dumpers to handheld breakers, drills and hand tools. All of our plant and tools are regularly serviced, calibrated, PAT tested and maintained, and receive certificates of conformity (where applicable) which are available on site or on request.

We have found these resources to be invaluable as they allow us price competitively and arrange work to start on site with minimal notice and no delays due to resourcing.
